### CALL TO ARTISTS Lodi Sandhill Crane Festival

This year will be the 23rd Annual Sandhill Crane Festival. We are soliciting original artwork for our juried Art Show and hope you will consider entering. We had a great show last year with several new-to-us artists as well as many returning artists.

The Festival is November 1-3 at Hutchins Street Square. We have 2 divisions—Fine Arts (oil, watercolor, sculpture, etc) and Photography.

Two subject categories will be displayed and judged in each division: 1) Sandhill Cranes in CA and 2) Other CA wildlife and their natural habitats.

Using the Local Adjustment Tools to take your images beyond ordinary - Learn how to use the Graduated Filter, Adjustment Brush, and the Radial Filter to set your images apart from the crowd.

Ansel Adams used to say, “the negative is the score and print is the performance.”

In today’s digital world, the raw file is the score and your post processing is the performance. Learn how to use the tools found in both Adobe Camera Raw and Lightroom to turn your score into a performance that will dazzle your audiences! Learn how to use these tools to accentuate the stars in your pictures and to control the lighting of your images. Lewis will demonstrate his technique for “flipping the light” to make your subject the strongest visual element in your pictures. Take the ordinary and make it extraordinary with these tips and techniques.
