

Sierra Camera Club of Sacramento Presents a Zoom Webinar:

Frozen Moments – High Speed Photography By: Steve Gettle

When: Tuesday June 9th at 6:00 PM PST

Space is limited - pre-registration required: [Click here to register](#)

Frozen Moments – High Speed Photography

With the advent of digital photography, it has become increasingly difficult to show people something new and different. High-speed flash allows photographers to stand out from the crowd. Photographing subjects and situations such as Hummingbirds in flight, frogs frozen mid-leap, a honeybee hovering above a flower, we can see and show other moments in nature that we otherwise miss. Participants will learn how to use off the shelf electronic flash for true high-speed photography for these subjects and so much more. Attendees will also learn how to add a high-speed trigger system and even an electro-magnetic shutter to create a whole new world of exciting imagery!

About Us

Steve and Nicole lead nature photography tours to exciting destinations around the world. They enjoy sharing their knowledge of the natural world and helping people capture amazing images of our planet. Steve has over 30 years of nature photography experience and has been recognized through numerous awards. These include being a multi-award winner of the BBC's Wildlife Photographer of the Year and recognized in the prestigious Nature's Best photography contest. His images are often featured in National Geographic and other nation-wide publications. Nicole has over 15 years of nature photography experience and enjoys discovering and sharing wild connections with others.
