**IMPORTANT
PLEASE PAY YOUR
DUES ASAP**

Dues need to be received by January 14th.
Work has started on your new SCC Handbook.
Distribution will begin
Jan 21, at the banquet.

President's Message

Happy New Year everyone!

2013 went out with a wonderful SCC bang with our fantastic Holiday potluck. Thanks to all that brought the delicious treats that made up such a nice dinner. A big thanks also goes out to our three presenters at the banquet. Joe Balestrini, Monty Mattox and Bob Hubbell presented wonderful slide presentations that really caught our attention. Thanks gentlemen.

This month, please be sure to join us at our annual awards banquet at the Pheasant Club on January 21st. This includes a terrific dinner and we will see who is chosen in each of our categories for the 2013 top images. We had so many beautiful pictures for our judge to pick from. Be sure to get your checks and entrée choices in asap.

Also, please be sure to pay your dues soon as they are "due" now. You may mail them in or bring to the next meeting, January 14. Dues need to be received by January 14th.

I always enjoy going to movies around the holidays. One that I really liked was *The Secret Life Of Walter Mitty*. It was a fantasy, comedy, adventure film about a Life Magazine Negative Assets Manager (as in film negatives) and his journey to track down their top photojournalist who is off traveling the world. I found it to be very entertaining and especially because it touched on Life Magazine's photography department. The landscape filming was also awesome so if you do go, sit up close. Although not based on a true story, you might enjoy it for the same reasons I did.

Keep on Clicking, Jeannie O'Brien, President

Invitation to Opening at the Sacramento Temporary Contemporary

THE TEMP GALLERY 1616 DEL PASO BLVD
921-1224 www.tempartgallery.com
Thursday January 9th, 6 to 10 P.M.
Interviews with the Myers at 6.

The 2nd Saturday Reception is January 11th 6-9.

Before Tom and Sally Myers became professional photographers for books, advertising and magazines they had a thriving art business creating sculptures.

Fifty years ago they sold their work in Carmel, San Francisco and Sacramento Galleries. Going back to their roots they have again embarked on making their wood sculptures. No new materials are used. Any color in the buildings comes from the original paint on the wood.

Finding the materials for their projects is much more difficult these days. Cities are too successful in their recycling operations. All soft drink cans are now made out of aluminum. Also any old wood from buildings being demolished is immediately placed in dumpsters.

Tom and Sally report that finding the material takes some resourcefulness. These days they often search for piles of old rusted tin and wood with the help of Google Earth. Whatever they find usable is turned into early day scenes of California as well as animals, birds and insects. The Myers, of course, always have their cameras with them so they are ready for photo possibilities too!!
