**PROGRAM BY PAULO RENATO
PHOTO RESTORATION**

**This will be a virtual online program
All members will receive a Zoom link to attend.**

Old photos are rare and precious memories

Ever wondered how to restore that 50 year old photograph so that you can share it with loved ones? This workshop shows how to use Photoshop to bring those faded memories back to life.

Here's what you will learn:

- * What is "Photo Restoration".
- * Scanning (digitizing) paper photos.
- * Post-Scan Corrections, noise reduction, color correction.
- * Global Adjustments.
- * Content-aware fill.
- * Sharpening.
- * Adding fake color.
- * Saving.

You are invited to participate!

If you have an old photo that you would like Paulo to work on for this program, please send him a jpeg of at least 6 MB if possible. His email is paulo@paulorenato.com. No guarantee that he will be able to use all of the images he receives, but he will try to use at least two or three.
