General Meeting Tuesday, August 14th by Donna Sturla

Professional Landscape Photographer Gary Hart will be our guest presenter at the August General meeting.

Gary’s presentation will be based on his upcoming article in September’s issue of ‘Outdoor Photographer’ magazine. He will talk to us about seeing the way the camera sees. He’ll talk about taking advantage of the camera’s view of the world to create a unique vision, rather than just trying to duplicate what the eye sees. He’ll also go into taking advantage of limited dynamic range, limited depth of focus, and the missing dimension (depth), and more.

Please come, this should be a great evening for all photographers.

Gary has great websites showing his work at:
