

New Photo Journalism Division

Sierra Camera Club is adding a new Photo Journalism Competition Division on an evaluation basis. This will broaden the scope of our competitive lineup, bring us into closer alignment with the Competition categories offered by N4C and provide additional opportunities for members of our club to showcase their photography.

Initially this competition will be held in conjunction with the Travel Division competitions starting on June 1. A new PhotoJournalism Category has been added to PhotoEntry for this purpose and entry procedures will be the same as for other Divisions.

Since we are starting this new Division in the middle of the year, there will be no official yearly scoring statistics and no End of Year awards. Evaluation and scoring of images will done in the same way as other Divisions, and the top three images in each class will be automatically entered in N4C competitions.

Judging Guidelines and Definitions are available on the website under the Competition | PhotoJournalism menu.
